

Frosty Pops

Sticky, chewy and soft. Frosty Pops are a firm favourite treat here at The North Pole. The Elves cannot get enough of these delicious treats. My favourite part

about making them is being able to make lots of different flavours.

milk chocolate, white chocolate or or for a healthier alternative you could even use yoghurt. Next is the toppings will you add chocolate chips, coconut, popping candy or possibly dried fruit.

It would be great to see what you come up with. Don't forget to send us a picture of your Frosty Pops using the hashtag below!

Frosty Pops

Ingredients

- 50g White Chocolate
- 50g Milk Chocolate
- Selection of Cake Sprinkles
- 1 Bag of Marshmallows
- 1 Pack of Lollipop Sticks

Alternatively to sprinkles you could use desiccated coconut.

Method

- Melt the chocolate by placing it broken up in a bowl over a simmering pan of boiling water or on a low setting in the microwave. Allow to cool a little. (Make sure you have an adult to help with this one)
- Put your sprinkles on separate plates.
- Push a cake pop or lolly stick into your marshmallow about half way in. Then dip them into the white or milk chocolate. Allow the excess to drip off then dip them into your choice of sprinkles. Leave them to set in a tall glass and repeat with all your Marshmallows.
